

Clever Instructions:

Students use Clever to access all of their online learning accounts in one place.

- Go to <https://clever.com/in/icsphilly> or click the “Clever” link in the “Online Resources” linked on our website’s homepage. You can also scan this QR code to reach the ICS Clever page:

- Click **Log in with Google** and enter your child's ICS email address and password.
 - 4th-8th graders should know their email addresses and passwords.
 - You can find your K-3rd grader's email address in the [Alma parent portal](#) under the **My Info** tab (see Alma section below). The K-3rd grade Clever/Google password is *griffins*.
 - **K-3rd graders-** Your clever badges have been mailed out and should arrive sometime next week. You can also **use your badge** to sign directly into your Clever account.

Inside Clever, you can access each learning resource by clicking on it. In some cases, your child will be logged in automatically. In other cases, you will have to enter additional login information. Hover over the **?** on a resource's icon to see the login instructions if needed.

You can also download the Clever app on a smartphone or tablet. The Clever app offers the ability for K-3 students to scan a unique Clever QR code to log in quickly. In the event of a very extended school closure, we will ensure that all K-3 families receive their QR code. If it would be helpful for you to have it now, you can request it by emailing helpdesk@icscharter.com.
